

We're asking the question...

CLOSING THE GAP INITIATIVE

As part of the Government's 'Closing the Gap' initiative. This practice will be asking **all** patients;

“Are you of Aboriginal and/or Torres Strait Islander Origin?”

Why are we asking all patients this Question?

We want to provide all our patients with appropriate, specific health care including immunisations and health screening.

How can I help?

You can tell reception staff whether you are or whether you are not of Aboriginal and Torres Strait Islander origin. Staff will then update your record.

Adapted from the New England Division of General Practice

Thank you for helping us to 'Close the Gap'
